

National Service in Louisiana

MEETING COMMUNITY NEEDS IN LOUISIANA

More than 5,400 people of all ages and backgrounds are helping to meet local needs, strengthen communities, and increase civic engagement through national service in Louisiana. Serving at more than 560 locations throughout the state, these citizens tutor and mentor children, support veterans and military families, provide health services, restore the environment, respond to disasters, increase economic opportunity, and recruit and manage volunteers.

This year, the Corporation for National and Community Service (CNCS) will commit more than \$19,140,000 to support Louisiana communities through national service initiatives. CNCS invests in cost-effective community solutions--working hand in hand with local partners to improve lives, expand economic opportunity, and engage citizens in solving problems in their communities. Serving in many of the state's most impoverished communities, CNCS provides vital support to schools, food banks, homeless shelters, community health clinics, youth centers, veterans service facilities, and other nonprofit and faith-based organizations at a time of growing demand for services. Through a unique public-private partnership, this federal investment will leverage an additional \$6,150,000 in other resources to strengthen community impact, build local support, and increase return on taxpayer dollars.

AmeriCorps: This year AmeriCorps will provide more than 1,400 individuals the opportunity to provide intensive, results-driven service to meet education, environmental, health, economic, and other pressing needs in communities across Louisiana. Most AmeriCorps grant funding goes to the Volunteer Louisiana, which in turn awards grants to nonprofit groups to respond to local needs. Most of the remainder of the grant funding is distributed by CNCS directly to multi-state and national organizations through a competitive grants process. Other individuals serve through AmeriCorps VISTA, whose members help bring individuals and communities out of poverty by serving full-time to fight illiteracy, improve health services, create businesses, and increase housing opportunities, and AmeriCorps NCCC (National Civilian Community Corps), a 10-month, full time residential program for men and women between the ages of 18 and 24. In exchange for their service, AmeriCorps members earn an education award that can be used to pay for college or to pay back qualified student loans. Since 1994, more than 13,000 Louisiana residents have served more than 16 million hours and have qualified for Segal AmeriCorps Education Awards totaling more than \$32,450,000.

Senior Corps: More than 3,900 seniors in Louisiana contribute their time and talents in one of three Senior Corps programs. Foster Grandparents serve one-on-one as tutors and mentors to more than 2,600 young people who have special needs. Senior Companions help more than 980 homebound seniors and other adults maintain independence in their own homes. RSVP volunteers conduct safety patrols, renovate homes, protect the environment, tutor and mentor youth, respond to natural disasters, and provide other services through more than 92 groups across Louisiana.

Social Innovation Fund: The Social Innovation Fund transforms lives and communities using limited federal investment as a catalyst to grow the impact of nonprofits with evidence of strong results. It harnesses the expertise of grantmaking intermediaries to identify, evaluate and expand effective nonprofits and engages funding partners to contribute nearly three dollars to every one federal dollar invested. As the Social Innovation Fund network grows programs that work in Louisiana, more people are able to overcome their most pressing challenges in the areas of economic opportunity, health, and youth development. The Social Innovation Fund is investing more than \$280,000 in expanding the impact of 3 nonprofits in Louisiana.

The Corporation for National and Community Service is a federal agency that improves lives, strengthens communities, and fosters civic engagement through service and volunteering. CNCS annually engages more than five million Americans in service to meet local needs through Senior Corps, AmeriCorps, and national days of service; improves communities through the Social Innovation Fund, and leads President Obama's national call to service initiative, United We Serve. To learn more visit NationalService.gov or Serve.gov or call 202-606-5000 or TTY 1-800-833-3722.

Notes: The data shown represents a snapshot in time. CNCS project sites, participants, and funding change throughout the year, so the data may not reflect current conditions.

- This figure represents the number of awarded positions available to be filled in the 2014 - 2015 program year. For AmeriCorps VISTA, this represents the actual number of VISTA members in active service.
- This figure represents the maximum potential value of Segal AmeriCorps Education Awards that can be earned by AmeriCorps members serving in Louisiana. The award can be used in any state to pay for college, graduate school, vocational training, or to pay back student loans. The education award total is included in total CNCS funding.
- AmeriCorps National figures may include national programs headquartered in the state and/or operating sites of national programs that are headquartered in other states. Funding reflects the estimated proportionate share of the national grant associated with operating sites in this report. Some national organizations do not report operating site data, or it was not available at time of publishing, so figures may not reflect current conditions.
- Louisiana is served by the AmeriCorps NCCC campus located in Vicksburg, Mississippi. In the past year, AmeriCorps NCCC teams have served on projects in Tallulah, New Orleans, Baton Rouge, Mandeville, Lafayette, Chalmette.
- The service location total may contain multiple counts of unique locations where multiple CNCS programs are operating.
- As part of its public-private partnership approach, CNCS requires grantees to leverage additional resources to strengthen community impact and increase the return on the federal investment. This figure reflects non-CNCS cash and in-kind resources that CNCS grantees and project sponsors have committed to raise to support their programming activities across the state.

Since 1994, more than 13,000 Louisiana residents have served more than 16 million hours and have qualified for Segal AmeriCorps Education Awards totaling more than \$32,450,000.

AmeriCorps State

Project Homecoming grew out of the response of the Presbytery of South Louisiana to rebuild lives, homes, and communities in the aftermath of Hurricane Katrina. Since April 2007, they have built over 250 houses in the New Orleans area, with assistance from over 10,000 volunteers from around the world. Thus far in 2014-15, Project Homecoming AmeriCorps members are contributing to the progress of 13 owner-occupied rehabilitation projects. They have hosted approximately 200 volunteers since September 1, 2014, participated in a joint 9/11 Day of Service and Remembrance project with AmeriCorps members from Rebuilding Together, and conducted a Make a Difference Day project providing services to 243 homeless veterans.

AmeriCorps National

New Orleans has the second highest rate of new HIV infections in the nation. To address the HIV epidemic in their community, five full time AIDS United AmeriCorps members provide direct services including HIV testing and counseling, health care access, prevention outreach, prevention education, and emotional and social services to at-risk populations. Since 2009, AIDS United AmeriCorps members in New Orleans have informed almost 2,500 individuals of their HIV status through HIV rapid testing and counseled them on their risk behaviors. Additionally, AmeriCorps members have reached almost 9,000 individuals through community outreach and education, providing information about HIV/AIDS risk reduction, community resources, and how to access medical care. Members have also mobilized almost 500 volunteers in the New Orleans area.

St. Bernard Project is a national long-term disaster recovery organization whose mission is to ensure that communities at risk of, or impacted by, disasters have the resources to prepare and recover in the most prompt, efficient and predictable way possible. The St. Bernard Project's Rebuilding Program in New Orleans rebuilds homes for senior citizens, people with disabilities and families with children who cannot afford to have their homes rebuilt by contractors. AmeriCorps members are essential to the success of St. Bernard Project, serving in roles including coordinating client services, supervising sites, coordinating logistics and managing volunteers. With the leadership of AmeriCorps members and hard work of thousands of volunteers, the St. Bernard Project has rebuilt more than 560 homes in the New Orleans area since 2006.

AmeriCorps VISTA

A group of Tulane AmeriCorps Fellows is making an impact in the Freret, Broadmoor, and Central City neighborhood in New Orleans. Seven fellows currently serve at local nonprofits, where they help to create job descriptions, prepare training sessions and orientations, and organize Tulane public service students in activities designed to enhance learning, civic engagement, and economic sustainability. The AmeriCorps VISTAs coordinate between Tulane, their partner agencies, and the communities to continue important initiatives direct at alleviating poverty. They also conduct research and build interagency collaborations. In partnership with CNCS and the Aspen Institute's Franklin Project, the Tulane AmeriCorps Fellows Program is in its first year. The fellowship enables students to pursue a post-graduate year of service in an area important to them and to make a tangible impact on the New Orleans community.

The Life of a Single Mom AmeriCorps VISTA Project, headquartered in Baton Rouge, exists so that no single parent walks alone. This program educates single parents in critical areas including parenting, money management, and overall health and wellness. The local model has been used to launch support groups in 1,500 churches and communities across the globe. More than 22,000 single parents in the United States and 18 additional countries have been reached. Long-term education and support for church and community leaders on how to meet the needs of single parent homes is provided with a focus on mentorship, education, and eliminating poor statistical data in these homes. The program also educates the general public and community leaders on the plight of the single parent family and offers tangible solutions to eradicate negative risk factors, while empowering families to achieve success in parenting, finances, and overall health and wellness. The program provides training, resources, education symposiums, conferences, webinars, events, and needs-assessment referrals for both single parents and those who work with them.

AmeriCorps NCCC

In partnership with The St. Bernard Project (SBP), a New Orleans-based nonprofit that exists to ensure disaster-impacted communities have a prompt, efficient and a predictable path to recovery, an AmeriCorps NCCC team assisted with the supervision of short-term volunteers for SBP and helped complete construction tasks of home rebuilding which included hanging sheetrock, mudding, sanding, painting, installing flooring, insulation and trim. The NCCC team learned a range of construction skills while it helped to renovate and construct homes with the SBP. SBP provided the team with the training necessary to do mudding, painting, siding, drywall, demolition and framing. While most of the team focused on site supervision duties over the range of volunteers that SBP uses for the bulk of its work, another group of Corps Members focused on framing skills and the initial phases of home construction. Working on over 40 individual homes over the course of the project, Corps members gained in-depth knowledge of their assigned construction skills and helped SBP come several steps closer to their goal of eradicating the plight of those rendered homeless by Hurricane Katrina.

AmeriCorps NCCC Cont'd

An AmeriCorps NCCC team was sent to New Orleans to work with Green Light New Orleans to help households reduce their energy consumption and learn to be more sustainable. Green Light New Orleans was founded in 2006 and has served more than 20,000 households saving residents an estimated \$20 million in utility bills and reducing CO2 in the city by 200 million pounds. Through their time in New Orleans, the NCCC team has made a major impact in the community of Orleans Parish. The members made 2,016 calls to residents, entered 145 referrals into the nonprofit's database, distributed 30 energy efficient kits, impacted 81 homes, and installed 1,327 energy efficient light bulbs for free. From these kits and new bulbs, the NCCC team helped reduce CO2 emissions by 593,169 pounds, conserved 52,283 kWh energy, and saved 60,042 dollars. The NCCC team also helped to educate the larger New Orleans community by giving out information on various energy saving topics and talking to residents about how people can lower their entire cities carbon footprint. Corps members also found time to help the community by installing 10 gardens in people's backyards.

Senior Corps Foster Grandparent Program

Quad Area CAA Foster Grandparent Program serves six parishes in Louisiana stretching from the Mississippi State line on the northern and eastern border to the Amite River on the western border and Lake Ponchartrain. Ninety-seven Foster Grandparent volunteers provide educational-supportive services to economically disadvantaged children as they prepare to enter kindergarten or attend K-12 school. Preparation for kindergarten includes multiple developmental and behavior domains for students. Foster Grandparents serve preschool students identified by teachers as being behind their age group in school readiness skills. They work with students on a 1-1 basis with to help them develop age-appropriate educational skills. Activities include numeracy, literacy, general cognitive and motor skills in an emotionally supportive learning environment.

Senior Corps RSVP

The Volunteers of America RSVP Program serves St. Tammany Parish (in Southeast Louisiana) which borders Tangipahoa Parish, Lake Pontchartrain, Washington Parish, and Mississippi state. The St. Tammany Needs Assessment identified health as the primary focus area for the communities served. Many residents do not avail themselves of wellness services. Some people see a doctor only in emergency rooms because they do not have access to health insurance or transportation. Families caring for seriously ill persons in their home have little assistance or respite opportunities. Poor nutrition and obesity are on the rise, also. More than 340 RSVP volunteers help address these community concerns by providing transportation of seniors and persons with disabilities to the doctor and grocery stores. The RSVP volunteers deliver food to the homebound, provide companionship, provide financial literacy training, and deliver elder abuse prevention training to homebound persons. The RSVP Project also assists with respite services, provides food pantry support, and leads Bone Builders classes.

Senior Corps Senior Companion Program

The Our Lady of the Lake Senior Companion Program in Baton Rouge has enjoyed the sponsorship of Our Lady of the Lake Regional Medical Center (OLOLRMC) for the past 25 years. As the largest hospital in the state, OLOLRMC is dedicated to a mission of service to all and especially to those who are most vulnerable - the elderly. OLOLRMC has traditionally provided 25 - 30% more dollars to allow for the successful fulfillment of the SCP Program. There are 46 funded Senior Companions that serve in many areas of the community including one-on-one in-home care, respite for caregivers on an in-home basis, PACE Baton Rouge Adult Day Care, St. Anthony's Home for HIV/AIDS Patient/Respite Care, and OLOLRMC Rehab In-Patient Care. Through their efforts in those venues, Senior Companions are able to ease the loneliness and isolation of home-bound elderly, help with activities of daily living, give peace of mind to family members, ease the burden of caregivers, and provide social and emotional support to ease the abandonment of HIV/AIDS patients.

Social Innovation Fund

The Social Innovation Fund transforms lives and communities using limited federal investment as a catalyst to grow the impact of nonprofits with evidence of strong results. It harnesses the expertise of grantmaking intermediaries to identify, evaluate and expand effective nonprofits and engages funding partners to contribute nearly three dollars to every one federal dollar invested. As the Social Innovation Fund network grows programs that work in Louisiana, more people are able to overcome their most pressing challenges in the areas of economic opportunity, health, and youth development. The Social Innovation Fund is investing \$284,822 in expanding the impact of three nonprofits in Louisiana.

Nonprofit Subgrantees in Louisiana

Program HQ Location	Nonprofit Subgrantee Name <i>Intermediary</i>	Description
New Orleans, LA	Louisiana Public Health Institute AIDS United	he overall goal of the Louisiana Reentry Initiative (LRI) is to link and retain in care formerly incarcerated individuals living with HIV infection in Louisiana. The Louisiana Public Health Institute (LPHI) in New Orleans, LA will serve as the lead agency and evaluator for this initiative. The LRI will focus on the unique retention needs of formerly incarcerated individuals living with HIV infection in the state. LPHI will collaborate with the Louisiana Office of Public Health in New Orleans, the Pennington Family Foundation, the Baton Rouge Area Foundation, and the Capitol Area Reentry Program (in partnership with the Earl K. Long Early Intervention Clinic in Baton Rouge and the Baton Rouge Area Alcohol and Drug Center, Inc.). The first 16 months of the LRI will be focused in the Baton Rouge area. The estimated number of persons to be served by the LRI is between 40-50 annually.
